WILEX TECHNOLOGIES

CCTV Site Survey Checklist

Practical Technology Guide

Before the Visit

• Confirm the client's objective, approximate camera count and existing equipment.

• Carry measuring and documentation tools.

Survey

• Entrance and exit points

• Parking and vehicle movement

• Reception/cashier areas

• Stores and restricted areas

• Lighting conditions

• Camera mounting points

• Cable routes

Network & Power

• Identify recorder location, cable routes, switch capacity and power outlets.

• For remote sites, document solar and backup-power requirements.

Handover

• Verify every camera, recording, playback, timestamps, remote access, users and secure credential transfer.
